Steve,

Yes, but I can't until next week. I recall looking through these files, esp during our response to NWEA's original FOIA request, and again last year.

I attached a document that I pulled together last year as a result of looking through our old paper files. Despite the name, most of the document discusses the scientific rationale supporting our additional MMs. We should flesh it out more, particularly with regard to state comments on our proposed AMMs.

Don,

Could you please take a look?

Thanks,

Steve

The state stuff would be in both EPA and NOAA files so Don should be able to look back at the record for that as well.

It was before we conditionally approved their program on Jan. 13, 1998. I'd have to dig through our old OR files to see if there are any records of comments. I have a vague recollection from responding to the first NWEA FOIA that we may have received a few comments about our proposed conditional approval but I don't think we received many. Will have to check.

Allison,

Some time ago, you mentioned that the federal agencies invited public comment on the additional measures (for forestry) for Oregon.

Do you recall when that was and/or whether we might be able to locate those comments?

Thanks,

Steve
